DETAILED ACTION

This Office Action is in response to an Election filed on

Currently, claims 1-20 are pending.

Election/Restrictions

1. Applicant's election of claims 1-10 in the reply filed on 8/30/2004 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).
2. Claims 11-20 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected device, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on 8/30/2004.
3. This application is in condition for allowance except for the presence of claims 11-20 to a device that is non-elected without traverse. Accordingly, claims 11-20 have been cancelled.

Allowable Subject Matter

4. Claims 1-10 are allowed.
5. The following is an examiner's statement of reasons for allowance: the prior art, either singly or in combination fails to anticipate or render obvious, the limitations of:
...forming a thyristor having at least four layers with three P-N junctions therebetween, at least two of the layers being formed horizontally on the semiconductor

Art Unit: 2812

substrate and at least two of the layers being formed vertically on the semiconductor substrate, as required by claim 1.

Lastly the prior art, either singly or in combination fails to anticipate or render obvious, the limitations of:

...depositing nitride spacers around at least one of the polysilicon gates and the P-Si pillar;

forming N+ implantations in the N- source/drain areas, in the top of the P-Si pillar, and in the top of the polysilicon gate over the P-implantation region;

forming a P+ implantation in the N-implantation adjacent the P-Si pillar, using the nitride spacer around the P-Si pillar to self-align the P+ implantation thereadjacent;

forming respective silicide layers over the N+ and P+ implantations; and

forming an interconnect between the silicide layer over the top of the P-Si pillar and one of the silicide layers over the N- source/drain areas, as required by claim 6.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
